DevOps Intern with hands-on experience deploying and managing AWS cloud infrastructure, including EC2, VPC, Load Balancing, and Auto Scaling, with working knowledge of Linux and Bash for server administration, along with a background in full-stack MERN development. Skilled in AWS (EC2, IAM, VPC, S3, Load Balancing), Docker, Jenkins, Kubernetes fundamentals, Git-based development, and REST API design.

EXPERIENCE

DevOps Intern

Jun 2026 - Present

Ayaan Infotech · Hybrid (WFO & WFH)

- Deployed and configured EC2 instances within a custom VPC, implementing a 3-tier architecture to separate application layers.
- Administered EC2 instances via Linux command line, using Bash for basic server configuration and troubleshooting.
- Configured Application Load Balancer (ALB), Target Groups, and Auto Scaling Groups to improve availability and scalability.
- Monitored AWS resources using CloudWatch and managed Security Groups, AMIs, and EBS volumes.

Full Stack Intern

Jul 2025 - Jan 2026

Labmentix · Remote

- Developed and maintained web applications using MERN stack and Next.js, deploying to Netlify and AWS.
- Designed REST APIs and tested endpoints using Thunder Client.

PROJECTS

AWS Multi-VPC Networking & VPC Peering

AWS VPC · EC2 · Route Tables

- Designed and configured two custom VPCs with Public and Private Subnets for Test and Production environments.
- Configured Route Tables and Internet Gateways and launched EC2 instances across separate VPCs.
- Established VPC Peering between 10.0.0.0/24 and 192.0.0.0/16 VPCs and configured routes for inter-VPC communication.
- Verified bidirectional connectivity between EC2 instances using ICMP (ping) tests.

Online Shopping Web App - CI/CD Pipeline

Docker · Jenkins (CI/CD) · AWS EC2

- Containerized the Online Shopping Web Application using Docker and configured AWS EC2 for deployment.
- Created a Jenkins CI/CD pipeline for automated build and deployment.

PortfolioAI - Automated Portfolio Generation from Resume

React · JavaScript · Node.js · MongoDB

- Developed a system that converts resumes into professional digital portfolios.
- Implemented resume parsing to extract structured data and built customizable portfolio templates with real-time preview.
- Created REST APIs using Node.js and Express.js for backend processing.

EDUCATION

B.Tech, Information Technology

2022 - 2026

Dr. A.P.J. Abdul Kalam Technical University · Lucknow, India

CERTIFICATIONS

Complete Core Java + DSA + Build Projects · Udemy

Jun 2025

Solutions Architecture Job Simulation · Forage

Dec 2024

IBM Cloud Essentials V3 · Cognitive Class

Oct 2023

TECHNICAL SKILLS

Cloud (AWS): EC2, IAM, VPC, S3, EBS, AMI, Security Groups, Load Balancer (ALB), Auto Scaling Group, Target Groups, CloudWatch

DevOps Tools: Docker, Jenkins (CI/CD), Git, GitHub, Kubernetes (Fundamentals)

Operating Systems & Scripting: Linux, Bash (Shell Scripting)

Development: MongoDB, REST APIs

Languages: Java
